

## Devi Nambudripad M.D., D.C., L.Ac., Ph.D.

CLASS BY THIS SPEAKER:

### Allergy Elimination: Introduction to NAET

5/23/10 LotusSEMINAR @ Los Angeles, CA and Live-streaming LotusWEBINAR

Approval for 8 CEUs/PDAs by CA, IL, FL, TX Acupuncture Boards & NCCAOM

Dr. Devi Nambudripad is a Doctor of Chiropractic and Licensed Acupuncturist. In an effort to solve personal health problems she had suffered since childhood, and help others with similar problems, she has conducted research in the U.S. over the past twenty-four years. Her efforts have resulted in the development of a new and effective approach, known as Nambudripad's Allergy Elimination Techniques (NAET®), for diagnosis and treatment of allergies and allergy-related health disorders of all types. NAET focuses on natural, non-invasive, drug-free solutions to elimination of allergies of all types, as well as using a combination of treatment procedures from acupuncture/acupressure, allopathic, chiropractic, nutritional and kinesiological disciplines of medicine. To date, thousands of patients who could not find relief elsewhere have been successfully treated for both food and environmental allergies and various allergy-based illness by NAET®, including ADHD, asthma, arthritis, autism, and many more.

As an internationally-known speaker, Dr. Nambudripad has been featured on radio and television many times and has written thirteen books for the general public and fourteen books for practitioners

Devi Nambudripad presents an introduction to her Nambudripad's Allergy Elimination Technique (NAET®). NAET® is a complementary and alternative medicine (CAM) that integrates principles from Western medicine, Oriental medicine, chiropractic, applied kinesiology, and nutritional sciences to offer patients a non-invasive, drug-free way to eliminate the allergies and hypersensitivities that are causing their discomfort.

#### Upon completion of this course, practitioners will:

- Describe NAET's development and techniques
- Employ NAET testing and desensitization procedures
- Identify causative agents in allergy and hypersensitivity
- Understand working within a multi-disciplinary care team for each patient's optimum progress
- Integrate the understanding of NAET with TCM theories and principles

Devi Nambudripad discusses the nature of allergies as well as common categories and grouping of allergies and the most commonly-seen allergic conditions. She shares the discovery and development of NAET, as well as NAET diagnostics and treatments. Demonstration of the technique and review of related research precede discussion of views of allergy mechanisms and care from allopathic and complementary perspectives, with a closing question and answer session.

#### Lotus CEU Seminar Comments

"I very much appreciate how well-organized your seminars and materials are. You try very hard to make it easy on the practitioners to do the best job he/she can. I want to come back and recommend your seminars because of the good price and discounts offered. Also your staff is extremely polite and professional, very nice to deal with. You are a top-notch organization!" D.V.
